

Finish & SuperFinish

Finish & SuperFinish

Airless diaphragm pumps

- Wide range of applications
- Various performance classes
- Innovative QLS technology

Powerful and robust diaphragm pumps

When it comes to the handling of a wide variety of materials with a single unit, diaphragm pumps are the best choice. There are also Airless paint spraying systems – **powerful and versatile** for **optimum surface quality**. This is ensured by **QLS technology**, the patented long stroke diaphragm technology from WAGNER. Optimised hydraulics and the special valve technology provide improved performance.

The longer stroke of the diaphragms enables a very wide range of materials to be worked with, from thin liquids to high-viscosity materials. Far less stress is placed on the components due to the reduced stroke frequency. This significantly extends their service life and reduces maintenance costs. **SF** stands also for **service-friendliness**.

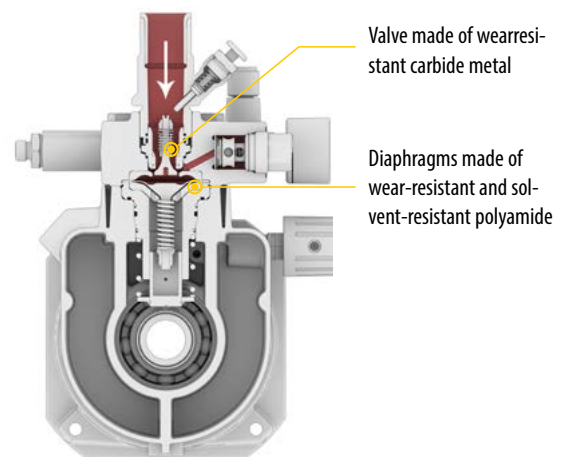

Fig.: This geometry allows the diaphragms to move smoothly, ensuring both reliability and durability.

Various performance classes

There is the right SuperFinish system for every area of use.

Material	Object size:	Finish 230	SuperFinish 17ex	SuperFinish 23 Plus	SuperFinish 27	SuperFinish 31
release agents and oils recommended nozzle size: FineFinish 0.008" - 0.014"	small	✓	✓	✓	✓	✓
	medium		✓	✓	✓	✓
	large				✓	✓
undercoats, primers, fillers, synthetic resin-based paints, acrylic paints recommended nozzle size: FineFinish 0.008" - 0.014"	small	✓	✓	✓	✓	✓
	medium		✓	✓	✓	✓
	large				✓	✓
emulsion paints, latex paints recommended nozzle size: FineFinish 0.017" - 0.027"	small			✓	✓	✓
	medium				✓	✓
	large					✓
anti-corrosive agents, flame retardants, fabric adhesives recommended nozzle size: 0.019" - 0.031"	small				✓	✓

Weight	17 kg	15.4 kg	29 kg	40 kg	43 kg
Max. delivery rate	1.2 l/min	1.6 l/min	2.5 l/min	3.0 l/min	3.5 l/min
Max. nozzle size	0.019"	0.017"	0.023"	0.027"	0.031"

Fully equipped for daily usage

In a single action

the unit can be converted from working with a hopper to working with a rigid suction tube.

Integrated toolbox

Convenient for handy tool storage

Safety advantage - Multifunction switch

It is impossible to turn the unit on and off under pressure.

Shock-absorbing tires

for easy transportation on uneven ground, difficult construction sites and up and down steps.

Spray superb surface quality

with the Vector Grip Airless gun. It is light in weight and has a long service life.

Including practical 230 V socket

intended for connecting additional devices such as a TempSpray.

High level of reliability

ensures the inlet valve pushbutton: press it once with your thumb and the valve is free.

Self-cleaning in 7 minutes

thanks to QuickClean, the suction tube with a gun connection. Pull off the gun, lock it and the SF 31 immediately starts to clean itself automatically.

Direct suction

from the container and trouble-free working allows the special suction intake filter and its particularly fine mesh.

Perfectly suited enamel devices

Equipped with a hopper these spraypacks are suitable for processing small quantities or fast colour change. The hoses have small cross sections. Top enamel tips guarantee a perfect surface. TempSpray heating hoses are an option.

Suitable for use in potentially explosive atmospheres

01 - SuperFinish 17ex Airless Enamel - The painting specialist for perfect surfaces

Compact and robust: perfect mobility thanks to compact dimensions

Economical and low-maintenance: extremely low-wear construction for cost-efficient working operation

Unique, pneumatically powered diaphragm pump: extremely quiet and economical in terms of air and material consumption

Flexible: Very small volume processing with hopper or work directly from the original container

02 - SuperFinish 17ex AirCoat - The FineFinish specialist for perfect surfaces

With AirCoat technology: Particularly fine atomisation for a perfect finish

Economical and low-maintenance: extremely low-wear construction for cost-efficient working operation

Unique, pneumatically powered diaphragm pump: extremely quiet and economical in terms of air and material consumption

Flexible: Very small volume processing with hopper or work directly from the original container

03 - Finish 230 Enamel - The entry-level model for professional Airless spraying

Ideally suited for small enamelling works

As smallest unit of its class it excels with a good value-for-money ratio

Easy to move: Practical carrying handle and built-in hose holder

04 - SuperFinish 23 Plus - The painting expert for small paint

Entry-level Airless unit with a capacity up to 800 m²

Straightforward handling and operation: Multifunctional safety - It is impossible to spray on and off under pressure

Improved performance: Equipped with a brushless motor

FineFinish painting with special FineFinish nozzle

01 - Scope of delivery

- Basic unit SuperFinish 17 ex
- HP hose DN3, max. 27 MPa, NPS 1/4", 7.5 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2- and 4-finger trigger
- 2SpeedTip nozzle L10 208/510
- Gun filter red, 1 item, 180 MA, 0.084 mm MW, extra fine
- Hopper, 5-litre set

Art. No. 2364 966

02 - Scope of delivery

- Basic unit SuperFinish 17ex on frame
- HP double hose; material DN3; max. 27 MPa; air DN6; 1/4"/7.5 m
- AirCoat gun AC 4500, incl. red air cap and nozzle holder
- Nozzle ACF3000 11/40
- AirCoat regulator
- Hopper, 5-litre set

Art. No. 2364 967

03 - Scope of delivery

- Basic unit Finish 230
- Hopper, 5-litre set
- HP hose DN4, max. 27 MPa, NPS 1/4", 7.5 m
- Airless gun Vector Pro, 1/4", incl. TradeTip 3 nozzle holder, with 2-finger trigger
- 2SpeedTip nozzle L10 208/510
- Gun filter red, 1 item, 180 MA, 0.084 mm MW, extra fine

Art. No. 0311 062

04 - Scope of delivery

- Basic unit SF 23 Plus
- 5 litre hopper, M36x1.5
- HP hose DN3, max. 27 MPa, NPS 1/4", 7.5 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2-finger trigger
- 2SpeedTip nozzle L10 208/510
- Gun filter red, 1 item, 180 MA, 0.084 mm MW, extra fine

05 - SuperFinish 23 Plus TempSpray - Enamel specialist with heated hose

Perfect surface results thanks to heated hose

Also ideal for highly viscous materials such as VOC enamels

The TempSpray system heats the material directly in the hose, thereby ensuring perfect viscosity without thinning, as well as optimum paint application

05 - Scope of delivery

- Basic unit SF 23 Plus
- 5 litre hopper, M36x2
- TempSpray H126 basic unit, 10 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2- and 4-finger trigger
- 2SpeedTip nozzle L10 208/510
- Gun filter red, 1 item, 180 MA, 0.084 mm MW, extra fine

Art. No. Skid version 2341 495

07 - Finish 230 AirCoat - Fully-featured mobile solution for painting tasks including built-in compressor

With AirCoat technology: Particularly fine atomisation for a perfect finish

Perfectly matching components: Little overspray and highly efficient application

Extremely versatile and mobile: built-in, quiet-running, high-performance compressor

Particularly easy handling

07 - Scope of delivery

- Basic unit Finish 230
- HP double hose; material DN3; max. 27 MPa; air DN6; 1/4", 7.5 m
- AirCoat gun AC 4600 Professional, incl. green air cap, nozzle holder and nozzle ACF 3000 11/40

Art. No. 2301 689

Spray large areas in no time

These diaphragm pumps convince with a wide variety of different applications. Whether inside or outside, ceilings or facades: the pumps always ensure the desired performance. The rigid suction system allows the unit to suck the material directly from the original container. Large tyres permit to transport the units easily on tough construction sites. The spraypacks are well complemented by nozzle extensions or the InlineRoller.

01

01 - SuperFinish 23 Plus Emulsion - The compact solution - strong yet lightweight

Smallest in its class: mobile and light

For small emulsion jobs up to 200 m²

Robust: Perfectly designed for demanding construction site use

PumpRunner: Perfect for clean, tidy transport

Use with 20 m hoses guaranteed with any material

01 - Scope of delivery

- Basic unit SuperFinish 23 Plus
- Suction system complete, for SF 23 Plus, incl. PumpRunner
- HP hose DN6, max. 27 MPa, NPSM 1/4", 15 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2- and 4-finger trigger
- 2SpeedTip nozzle D10 111/419

Art. No. Skid version 2341 493

Art. No. Cart version 2341 494

02

02 - SuperFinish 27 Emulsion - The versatile solution - For almost any job up to 800 m²

Particularly long service life: Tried and trusted diaphragm technology with QLS technology

Flexible: work directly from the original container or process small volumes with top-mounted container (accessories necessary)

Perfect for site work: Robust cart and large wheels make manoeuvring on the construction site a simple task

02 - Scope of delivery

- Basic unit SuperFinish 27
- Suctions system complete „QuickClean“
- HP hose DN6, max. 27 MPa, NPSM 1/4", 15 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2- and 4-finger trigger
- 2SpeedTip nozzle D20 115/421

Art. No. 0341 051

03

03 - SuperFinish 31 Emulsion - The powerful all-rounder

Versatile and powerful: Handles an extremely wide spectrum of materials

Flexible: work directly from the original container or process small volumes with top-mounted container (accessories necessary)

No compromises: High performance ensures you're always on the safe side

03 - Scope of delivery

- Basic unit SuperFinish 31
- Suction system complete „QuickClean“
- HP hose DN6, max. 27 MPa, NPSM 1/4", 15 m
- Airless gun Vector Grip, 1/4", incl. TradeTip 3 nozzle holder, with 2- and 4-finger trigger
- 2SpeedTip nozzle D20 115/421

Art. No. 0341 022
